cuteVMS

cuteVMS is an advanced but simple visitor management solution to keep track of all your visitors and manage them efficiently. It increases the productivity of your security office staff and helps to easily analyze data of all your visitors.

- Manage and monitor all visitors at your premises
- Scan Time In / Time Out using their IC / Passport / Driving license etc. using a quick bar code scanner. (Take photo optionally)
- Repeat visitors recognized by system and required data automatically filled in for quick processing.
- Monitor the current visitors in premises for security and emergency requirements.
- Security operations can be monitored by HR / Management.
- Simple to use for security personnel
- Reports
